

I Want Bigger Cobra Skulls

Cobra Skulls

Cut me up but don't bother what's within
Cuz beauty is only as deep as my skin
I'm autotheistic I never wanna die
Don't wanna live unless I'm beautiful And I take on the drugs with more pressure flow
What's the aging process if the process doesn't show?
I live to be a 150 and look like I died at 25
Soon I'll just have a new body? it's only a matter of time
A matter of time Time is never on your side
We're trying to deny what nature decides
You know you only fall apart again
You need injectioning
The only strengths you pass on are the jealous ones
And you take on the drugs with more pressure flow
What's the aging process if the process doesn't show?
You'll live to be a 150 and look like you died at 25
Soon you'll just have a new body? it's only a matter of time
A matter of time
