

# Keep Rollin' On

[Hunter Hutchinson](#)

Another mile another long highway headed away from you chasing dreams and running down big names to make it all come true, Broken hearts and busted old six strings singing the same old song but i keep Rollin Rollin on, Gettin by I'm Runnin on empty I'm barely spittin fumes many times this horse done kicked me its what i was born to do the band's playin and the folks round here saying boy it wont take long just gotta keep Rollin Rollin on, I keep Rollin Rollin with the only life I know steady as the breeze blows whatever life throws keep movin down that road just keep pushing on stronger make it longer doing my best to prove that i belong just keep Rollin on, temptation standing right behind me whenever I turn around white knuckles starin down a two lane headin to another town eyes heavy try to keep it all steady as we move through the break of dawn but i keep Rollin rollin on, I keep Rollin Rollin with the only life I know steady as the breeze blows whatever life throws keep movin down that road just keep pushing on stronger make it longer doing my best to prove that i belong I just keep Rollin on just keep Rollin on, just keep Rollin rollin with the only life I know steady as the breeze blows whatever life throws keep movin down that road just keep pushing on stronger make it longer doing my best to prove that i belong just keep Rollin on
