Throw It All Away

Edwin Mccain

It's taken all this time to work you out
And if I wasn't sure before now I'm in no doubt
You're running out of things to say and I can see it in your face
You're going to throw it all away[Chorus:]
Makes no difference what you say cause you can't hide it
Cause every moment slips away there's no denying
That I know, yes I know
You're going to throw it all awayYou've been running for so long you've lost your way
It doesn't matter what you do it's getting closer every day
You're running out of things to say and I can see it in your face
You're going to throw it all away[Chorus]You're going to throw it all away
You're going to throw it all away
You're going to throw it all away[Chorus]
