

On My Mind

Super Stereo

As I write you now
I'm 20 thousand light years from the sun
I'm reaching out for love
Tell me you're not gone Is it logical?
Will we stand the test of time?
In a thousand years or more will you be mine?
I know you've already gone but love is blind Always on my mind
Fill our space with time
Look inside to find
You're always on my mind Faces fade away
All the places lose their names
But the one thing I recall is still ingrained
A love like ours could never fade away Always on my mind
Fill our space with time
Look inside to find
You're always on my mind Whoa Whoa (3x) I wanna know
How you lived your life
Did you find love after mine?
Which places did you find?
I hope you know you're always on my mind Always on my mind
Fill our space with time
Look inside to find
You're always on my mind Always on my mind
Fill our space with time
Look inside to find
You're always on my mind Always on my mind, always on (repeat)
(Whoa whoa)
