

Way to Blue

[Nick Drake](#)

Don't you have a word to show what may be done
Have you never heard a way to find the sunTell me all that you may know
Show me what you have to show
Won't you come and say
If you know the way to blueHave you seen the land living by the breeze
Can you understand a light among the treesTell me all that you may know
Show me what you have to show
Tell us all today
If you know the way to blueLook through time and find your rhyme
Tell us what you find
We will wait at your gate
Hoping like the blindCan you now recall all that you have known
Will you never fall when the light has flownTell me all that you may know
Show me what you have to show
Won't you come and say
If you know the way to blue
