

# Good Day to Be Me

## Brooks & Dunn

Some folks call me crazy my momma call me 'hon  
And depending on the mood your in, I might be either one  
Hey, I get up and I go to work and I got to work some more  
When I get home I take it off and I throw it on the floor[Chorus]

I'm a country boy and I'm a rockin' roller

Like a little crown in my Coca-Cola

Say a little prayer for all the soldiers

Fightin' for the USA

I never was captain of the football team

You ain't never been a prom queen

It's just us and that's OK

If I got you well it's a good day

Good day to be me You weren't wearin' makeup baby on the nigh you said we would

It's the funny things that I remember when I'm feelin' good

A dollar in my pocket and a catfish on the line

A song about a simple love that's stronger than the pines[Chorus] When I see ol' glory wavin' when the music starts

I take my hat off of my head and put it on my heart[Chorus] If I got you well it's a good day, baby

Good day to be me

If I got you well it's a good day, baby
