

I Will Fall (feat. Clare Bowen & Sam Palladio)

Nashville Cast

I'm afraid to go up into the second floor
If you wanted to work it out why'd you lock the door
 I thought I was good at loving you
 But our light went out when you wanted it to
 I wish you the best, I'm headed west
it's all I know to doI will fall, I will fall if you come around
 Just when I think my heart break settled down
I will fall, I will fall if you come aroundWhen we said goodbye it was forever
 And I spent the last year piecing my life together
 Just when I think I've let you go
 Your song is playing on the radio
 And just like that it rushes back
every part of youI will fall, I will fall if you come around
 Just when I think my heart break settled down
I will fall, I will fall if you come aroundOooh, oooh, oooh
 Oooh, oooh, ooohI will fall, I will fall if you come around
Just when I think my heart break settled downI will fall, I will fall if you come around
 Just when I think my heart break settled down
 I will fall, I will fall if you come around
