Sunshine

Jungle Brothers

Ah
W-J-B-S, on your radio dial
With the morning of the fox, that rocks the box
Expect sunshine today!
For yesterday's rain has faded far away
Now we seek a brand new day, a brand new way
Learn my brothers and sisters, learn

Nighttime fades away, on to the next day
The weatherman predicts a clear sunny Saturday
Relax laid back and feelin' the cool breeze
Positive vibes in sauce and the melodies
Gather my leaves and all my minerals
Fix myself a bowl of vegetables
Ice cold water and chopped up fruits
Gonna be a long day so I throw on my boots
Stretch out my hut and beyond the sun rises
Clouds gather round and suddenly hides it
Doubled back cause it started pourin'
Children scared of the thunder roarin'
Given the light but now there's darkness
Started with intelligence, now there's ignorance
Negative vibes now I don't feel right
I want my sunshine, I want my sunlight
Same old story, over and over
Somebody tryin' to take knowledge over
So I fight back with a native dance
Sing my song and chant my chants

Rain, rain, go away
Please come back another day
The sun will shine and now the sky is gray
Please rain, go way

The pavement sweats as a hot day sets in
I need to cool off so I find me a hydrant
Pull out my wrench and turn on a happy face
See some buckets I think there'll be a chase
Water splashin', children laughin'

Hopin' the feelin', will keep on lastin'
A shot rings out and a young girl hits the ground
Someone wasn't in the mood for playin' around
The mother cries as she sees her young one
Victim of a fool while playin' in the hot sun
Kangaroos came and cleared out the area
Covered her up so the sun won't beat her
The sun still shines but the day now feels gray
Oh Mr. Rain would you please please go away?
The sun still shines but the day now feels gray
Oh Mr. Rain would you please please go away?

(Sunshine)
(Sunshine)
(Sunshine)
(Sunshine)

Rain, rain, go away
Please come back another day
The sun will shine and now the sky is gray
Please rain, go way

W-J-B-S and in the studio right now the Jungle Brothers
How you doin' my friends?
Before we go on, say a few words to the people

Yeah I'd like to say I'd like to say somethin' serious
Real serious
The sun shinin', the guidin' light
The fire that we all attempt to fight
The only thing is you can't put it out
You blow and blow but that makes it grow
Bright around and it was made for me
A gift from God that he gave to me
You eat it and chew it, and then you swallow it
And wisdom is what you get from it
Try to stop me from gettin' mine
And you can kiss me where the sun don't shine
Yeah, there's room out there for those who want some
'Cause "Everybody's got a little light, under the sun,
Under the sun, under the sun, under the sun

Knowledge stands upright, fear has no height
Work towards the star that gives off the brightest light
JBeez movin' in a bright direction

Free of injury or evil infection
Stay out the dark and you'll find that you'll be strong
Believe in yourself and nothin' will go wrong
There's room out there for those who want some
Because everybody's got a little light, under the sun
Ha ha ha ha ha ha ha!
