A Better Tomorrow

No Cash

I believe its a unanimous decision
america is the worst face of terrorism
supplying enemies with bombs, funding and arms
its quite scarythat's why i cannot sleep
this knife is in too deep
i've dreamed of so much more
than dying in religious warits been a while since i cracked a smile
nightmares of having a bomb strapped to my body
dying for my people destroying the evil
its overwhelmingSOME THINGS WILL NEVER CHANGE!
