

# Heaven and Hell

## Ten Foot Pole

Mother makes a bath and smiles  
while she watches her five children drown  
without a sound  
Love in sickness and in health  
her tearful husband pleas in her defend,  
"She lost her sense" Don't need to look beyond, take a look around  
From the time we're born 'til we join the ground  
Heaven and Hell always close by  
Two worlds made on earth while we're still alive Boy and girl in summer grass  
sun as witness, promise from the heart  
to never part  
Family has to move away  
"Forever" now a cold wind in the past,  
love couldn't last Don't need to look beyond...
