Put The Blame On Me

Eurythmics

Put the blame on me Put the blame on me Take me to a dark room And hug me to bits I just wanna be kissed so badly Right there on my lips Put the blame on me Put the blame on me Why did you close your eyes When I'm the one that's blind? Why did you close your eyes? That was too unkind Where are you tonight, are you sleeping on your own? I need to know where you are tonight Are you sleeping on your very own? Tell the one that's lying with you

To get right up and go back home
To get right up and go back home
To get right up to get back home, and go back home
To get right up and go back home
To get right up and go back home
To get right up and go back home
(Put the blame on me)
To get right up and go back home
To get right up and go back home
(Put the blame on me)
To get right up and go back home

To get right up and go back home ...
