

Old Ties and Companions

Mandolin Orange

Old man give me endless time
Never let these ties sever
It's breaking bottles in the yard
Never still my mind againMmmLike old ties and companions
Just sitting on the fenceThe tears we've carried through the years will change
And man that's just enough
To keep these ghosts around those haunted fieldsMmmLike old ties and companions
You and I were just passing throughIt's a hundred thousand miles of lonely track
Holding back tomorrow
Someday I'll hop along and ride it homeLike old ties and companions
We never leave aloneSo old man give me endless time never let these ties sever
So heaven knows and all this fooling around
These times won't last forever, afterall
