

# Get Out

[Samiam](#)

I feel like I'm trapped inside  
And this room has been a bit unkind  
Won't someone please drag me outside  
And shower me with light?  
I know that I can shine  
But it may take some time  
I just need to go out  
I need to go out  
Anywhere but here is fine  
But you better make it soon  
Or the leather couch is where you will find me  
Won't someone please drag me outside?  
I'm going to lose my mind  
If I don't go out  
If I don't go out  
If I don't go out
