

# The Hardest Things

## The Juliana Theory

They couldn't have told me  
That it would be like this  
That it could be like this  
For you  
I wish I would have known  
That it could be like this  
That it would be like this  
For you  
I know you're hurting  
I know you're reaching out  
I'm sure you wonder what this is all about  
You couldn't sweat full, full words be known to you  
I'm sure you feel it  
You know I feel it too  
Sometimes the hardest things in life  
Are the things we have to do  
And even when we feel it's right  
I never want to hurt you  
It's never simple  
Deciding what should be  
There's still a void here  
When you're an absentee  
You could be angry

But you're a bigger man  
We know you'll make it  
Never forget to stand  
Sometimes the hardest things in life  
Are the things we have to do  
And even when we feel it's right  
I never want to hurt you  
You have always been  
You always will  
You have always been a part of me  
You have always been a part of me  
You will always be a part of me  
You will always be a part of me  
You will always be a part of me  
You've always been a part

The hardest things in life  
Are the things we have to do  
And even when we feel it's right  
I never want to hurt you  
Sometimes the hardest things in life  
Are the things we have to do  
And even when we feel it's right  
I never want to hurt you
