Vacations

Glowtape

Tell me how
You and I were so happy
Cause now and then I come up empty
It's not about the trivial things
You'll see

That was when you showed me
How it was all a blur
I'll make the some mistakes
I remember the cold feet
But it's all over now
I'll leave my dreams unchanged

This time (This time)
We're leaving at dawn I won't make a sound so don't hide (don't hide)
Uncover your eyes
Somehow (somehow)
Before it's all gone
Don't put up a fight
Just hold out (hold out)
I'm making it right

Talk me down
I'm torn over the simplest things
Then again we got off easy
Wasn't this supposed to be for keeps

Cause you and I were born from afar
Maybe we can elevate ourselves
If you and I can run from the fire
To higher ground

This time (This time)
We're leaving at dawn I won't make a sound so don't hide (don't hide)
Uncover your eyes
Somehow (somehow)
Before it's all gone
Don't put up a fight
Just hold out (hold out)

I'm making it right

(Instrumental)

Cause you and I were born from the fire
Maybe we can elevate ourselves
If you and I would run from the fire
To hugher ground
