

This Town

[Frank Sinatra](#)

This town is a lonely town
Not the only town like-a this town
This town is a make you town
Or a break you town and bring you down town This town is a quiet town
Or a riot town like this town
This town is a love you town
And a shove you down and push you 'round town This town is an all right town
For an uptight town like-a this town
This town, it's a use you town
An abuse you town until you're down town This town is a losin' town, it's a miserable town
It's a nowhere town and I am leavin' this town
You better believe that I'm leavin' this town
Man, it could never be uptown, it's bound to be downtown
