What If I Don't

Forty Foot Echo

You give yourself a higher gradeYou've come undone
I'll take my life and go away
Hit the ground and runGot to wait
Got to fight for the simple life
It's time though
I found my low[Chorus]
What if I don't deserve you at all
You keep on waitin' for apologies
I don't care
I don't believe you at all
Somethin' ain't right
'Cause I'm sick of you
But what if I don'tYou take me down and fly away
I'm overcome
I can't defend, I'm left astray
I've come undoneGot to wait
Got to fight for the simple life
It's time though
I found my lowWhat if I don'tI walk down the road
You always tried to follow
Why don't you just go away[Chorus]
