Pandemic

Devin Townsend Project

In the cool of the evening, when the fires start burning bright
Hear the twilight callin', as the flames burst into the night
It's creeping in your bloodstream... like a Metal diseaseUnderneath the streetlights, everything is larger than life
Ya hear the roar, see it gleaming like the edge on a switch-blade knife
A worldwide eruption... underneath your skin
Worldwide corruption... slowly seeping in,[Chorus:]
It's a pandemic
It's a metal disease... pandemic
Brain cell abduction, creeping in like sin, it's a pandemic...
'A metal disease... pandemic
Brain cell destruction, breeding metal from within...
Whaaaa!Give into the venom, circulating underneath the skin
Like mercury poison, liquid metal boils within
Spreading like a wildfire, burning up the earth
Caught in the crossfire, all around the world
There's no way to stop it now...[Chorus:]
It's a pandemic
It's a metal disease... pandemic
Burnt in your hard drive, smokin' up the earth, like a Pandemic
A pandemic... it's a metal disease[Solo][Chorus:]
Pandemic... wow, it's a metal disease
Pandemic... caught in the barbed wire, it's underneath the skin
It's a pandemic... it's a metal diseasePandemic
It's creeping in your bloodstream
It's a pandemic!... it's a metal disease
