

Black Man Ray

China Crisis

Are we believing
Black Man Ray?
Are we not happy
In our own way And we the people
Who reason why
Forever change
As time goes by Yes, yes, I could be wrong
Why, why, should I pretend?
God only knows in the end Are we believing
The heavenly survive?
Faith the future
Big life on their side And we the people
Who can but try
Forever learn
As time goes by Yes, yes, I could be wrong
Why, why, should I pretend
God only knows in the end Are we believing
Black Man Ray?
Persuasive danger
In everything you say And we the people
Who answer you why
Forever doubt
As time goes by
