Keep Pushin'

Kero One

I know I won`t have you in my way
And I`ll keep pushin' every single day
I know you`ll say all the things you say
But I`ll keep pushin' every single day
I know I won`t have you in my way
And I`ll keep pushin' every single day
I know you`ll say all the things you say
But I`ll keep pushin' dala dala da dayAll these minutes they keep on tickin'
all these limits they keep me kickin'
and most these critics that`s dissin' or said I`m trippin'
thank you for picking me up
I ain`t quittin' or giving it up
too many enemies in my path
reality shows kiss my ass
but I`m watchin' to get those laughs
screamin' at TV win that cash
and that`s when my lady calls
priorities or could I just stall
next I know we`re going shoppin'
leather shoes bought `em like big things poppin'
and that`s the way love goes
give it all till there ain`t no more
surf the net till eyes go sore
a day in the life of an average Joe
even though I travel the globe
rock shows come home with my head down low
non believers zip your lips
And believe I won`t quit till I reach my goalsI know I won`t have you in my way
And I`ll keep pushin' every single day
I know you`ll say all the things you say
But I`ll keep pushin' every single day
I know I won`t have you in my way
And I`ll keep pushin' every single day
I know you`ll say all the things you say
But I`ll keep pushin' dala dala da dayI know I won`t have you in my way
But I`ll keep pushin' every single day
I know you say all the things you say
But I`ll keep pushin'Can`t be pleased livin' if I`m dyin' to please
livin' down on my knees in apologies so follow me

Look up to the universe even this verse divine property see
love is a drug and I`m pushin' it by the keys
Living by the word incurred by the proephecies
Only god can judge me now
no walls or no falls can budge me now
If you heard me loud then scream back
don`t you forget where your dream at we map
Map The Soul all the way from Frisco back to Seoul
never lose control
Keep pushin' don`t need a fall back
no addition don`t need a call back
just make a choice
We listen, you don`t have to fake your voiceI know I won`t have you in my way
And I`ll keep pushing every single day
I know you`ll say all the things you say
But I`ll keep pushing every single day
I know I won`t have you in my way
And I`ll keep pushing every single day
I know you`ll say all the things you say
But I`ll keep pushing dala dala da day
