You are the reason why I despise the world
But still you're the only reason why I'm still in it
Time never healed my wounds
It just made them more infected
They talk about their heartache
But I got a fucking heart attack I can't reach my mind, I can't reach my heart
Why can't I leave you behind?
Never have a choice, never feel rejoice
I damn my inner voice And when two rivers run together they can never be distinct again
Locked in a dream to filter out your polluted stream
And when two rivers run together they can never be distinct again
Locked in a dream to filter out your polluted stream Every time I talk with you I never have a choice
Every time I try to sew my wounds, you stretch them wide open
Time never washed my brain, it just made it more infested
I will break out of this mind prison, I will break out! I can't reach my mind, I can't reach my heart
Why can't I leave you behind?
Never have a choice, never feel rejoice
I damn my inner voice And when two rivers run together they can never be distinct again
Locked in a dream to filter out your polluted stream
And when two rivers run together they can never be distinct again
Locked in a dream to filter out your polluted stream Every time I talk with you I never have a choice
Every time I try to sew my wounds, you stretch them wide open And when two rivers run together they can
never be distinct again
Locked in a dream to filter out your polluted stream
And when two rivers run together they can never be distinct again
Locked in a dream to filter out your polluted stream I can't reach my mind, I can't reach my heart
Why can't I leave you behind?
I don't have a choice, let me feel rejoice
I damn my inner voice I can't reach my mind, I can't reach my heart
Why can't I leave you behind?
I don't have a choice, let me feel rejoice
I damn my inner voice I can't reach my mind, I can't reach my heart
Why can't I leave you behind?
I don't have a choice, let me feel rejoice
I damn my inner voice
