Curious

The Innocence Mission

We're curious about the one he loves
We're getting carried away with our guesses
What is she like? We want to know
She'll be the bride of our dear brotherShe's very nice
She's very nice
She's very nice
That's all he saidWe're curious
Curious
We're curious about the whole affairShe comes from London
We think that is so romantic
Maybe she is distantly related to DiHe met her at college
She'll graduate with honors
Maybe our brother fell in love with her mindShe's very bright
She's very bright
She's very bright
That's what he saidThat's news to us
News to us
We're curious about the whole affairI know our brother
I know what he wants
He wants to make an entrance in grand styleAnd I know our brother
He's trying to tease us
He knows the wheels are turning in our mindsWe're curious
Curious
We're curious about the whole affairSo curious
Curious
So curious
It's so unfair
