The Last Emperor

Now if I loved you, would you love me back?
Would you confess that I was the best that you've ever had?
Would you allow me to hold you, show you exotic lands?
Well there's no need to look any further, you've got your manTurn of the lights; let me close the door
Two bodies, one common cause, I'll fill your ways to explore
Would you be willin to be empress to an Emperor?
Stop frontin; come get somethin, you never felt before
Now that I got it, never let another.take it from me
You need it, I can see it, I can tell by the way you touch me
Mourn for me when I'm gone, although while thinking of me
Allow me one moment in time, I'ma make you love meNow if I loved you, would you love me back?
Would you confess that I was the best that you've ever had?
Would you allow me to hold you, show you exotic lands?
Well there's no need to look any further, you've got your manWhat is it that you desire, your highness? Ask I listen
Someone above the average thug or man or vision
Let me be your knight with shining armour, a man with riches
Be the genie, in your magic land, be grant your wishes
Play the starring roll, be the leading actor
Let me be the Mark Anthony to your Cleopatra
Your only protector, once I got ya, let me get at cha
Quicken your pulse, have your heart.beatin faster
Be the master of your happiness, to keep it hole
Be the spouse, come and live in my house, give me a home
Would you accept it, Dis-agreed or hate it.leave me alone?
Or love it, like Mike. Douglas and Catharine Zeta JonesNow if I loved you, would you love me back?
Would you confess that I was the best that you've ever had?
Would you allow me to hold you, show you exotic lands?
Well there's no need to look any further, you've got your manNow could you find another guy to satisfy.your every need?
Every dimension, inch of the earth and the seven seas?
I'm that person, end your searching 'cause I got what you need
For me too guide you, ain't no problem, juss follow my leads
Come my direction under my protection, I'll take you there
No question my love's perfected, yea you can say it's rare
Love-making we share's on moment that's frozen in time
I know how to treat my lady and baby I'm goin for mine
Here too conquer the ? you honour and fight your bous
Would you let me know the intimate things that you think about?

You gotta make me a father, come on and juss have my child
Stop the procrastinatin and waitin, let's do it nowNow if I loved you, would you love me back?
Would you confess that I was the best that you've ever had?
Would you allow me to hold you, show you exotic lands?
