There

Slushy

My alarm goes off at seven
I gotta be at work by nine
And every day I always
Stop to get a lattI get to work and check my e-mails
Before the day begins
And as soon as it starts
I can't wait for it to end'Cause you're always
(There)
Every day you're
(There)
Even though right now I'm acting
Like I don't careBoy, you know me better then I know myself
I can say it's over
(But you're still right there)In my heart, in my mind, in my bed, you never left
Boy, you know me better than I know myself
And if I want it over, why am I keeping you?
(There)My weekends are busy
Friday is girl's night, having fun
I be up early on Saturday 'cause I got errands to run
Sunday morning service, I be up in the churchAsking God to help me forget that I ever met you
'Cause I notice the more I push you away
The more I want you to stay'Cause you're always
(There)
Every day you're
(There)
Even though right now I'm acting
Like I don't careBoy, you know me better then I know myself
I can say it's over
(But you're still right there)In my heart, in my mind, in my bed, you never left
Boy, you know me better than I know myself
And if I want it over, why am I keeping you?
(There)(I'm just running from what I feel inside)
I can tell myself a million times I'm over you
But everybody know that's far from the truth
('Cause I never really said goodbye)
I may have said it but I didn't mean it from my heart
'Cause ever since I left boy it's tearing me apart'Cause you're always
(There)
Every day you're

(There)
Even though right now I'm acting
Like I don't careBoy, you know me better then I know myself
I can say it's over
(But you're still right there)In my heart, in my mind, in my bed, you never left
Boy, you know me better than I know myself
And if I want it over, why am I keeping you?
(There)
