We Are Not Good People

Bloc Party

Think fast boy, think on your feet
If you dont know it now you never will
Youre so young to be so heavy
Rip off the seal and let me school youYou see angels melt when they touch the ground
You see youre not dumb, youre just not aligned
Because you could be the one percent
If you wannaWere not good people
This is a warningIf God is God then why is he secret?
Todays the day youve been set free
They might claim the best things are hidden
But I was here, you came to meWith these five lines you will be reborn
A superman or maybe a jock
You can crush the whole world in your hand
If you wannaWeve got the doorway
Weve got the hallway
You cant restore yourselfWere not good people
This is a warning
