

# Snapper

## Hugh Cornwell

If I could have just one more wish  
It would be for a fillet of fish  
You wouldn't have to take out the bones  
You could even serve it up on it's own  
I call it snapper  
I call it snapperIt doesn't come in just one size  
The taste you just don't realise  
I prefer it to wellhung game  
Cos game always ends up smelling the same  
I call it snapper  
I call it snapperTake me all over the world  
Cafes bars restaurants the dishes unfurl  
If I could be tempted by one sweet little thing  
I'd have to admit that snapper is king snapper is king or queenSo my friend just eat your fill  
Cos eating can turn into a thrill  
You know meat can go off so fast  
That's why I maintain right up to the last  
Just give me snapper just give me snapper
