

# **Everafter**

## **Claire Voyant**

The sun stole your heart and  
then left you in the sane world  
I do realize I'm often vague

The shore smells the sweetest when all that is left your pale your dry  
And I do recognize I'm often vainEros stole your words and you weren't the same  
-not scared of time

and I do recognize there is more than fate  
the souls never-ending and worth the wait-It's safe to flyI do recognize this old souls face
