The Side You Never Get To See

The Frames

If you come, come alone
Please don't take anyone else
'Cause we're never alone
And tonight I want you for myself
Take it back, take it back
Those words that you never can help
And the side you'll never get to see
Is the part I keep from everyone
And the side you'll never get to reach
Is alive, is alive
Will you dance monkey dance?
Don't have me repeating myself
'Cause you came here by chance
And I'll knock you right down again
And the side you'll never get to see
Is the part I keep from everyone
And the side you'll never get to reach
Is alive, is alive
And the side you'll never get to see
Is the part I keep from everyone
And the side you'll never get to reach
Is alive, comes alive
