Antidote

Problems at school problems at work
sally the slut and guido the jerk
problems at work problems at play
financial problems everyday

I wait all week for the one day i can relax
get up and chase my troubles with an axe
walk in the door feedback and fights
i seek my refuge on friday nights

My girlfriends pregnant i can't find a job
i think i got crabs my house was robbed
i've got a problem i can't find my friends
products of conception i'm sick again
problems delivered my eyes have sags
my father just told me to pack my bags
i'll bet i committed no sin
but it's better than living with him

I wait all week for the one day i can relax
get up and chase my troubles with an axe
walk in the door feedback and fights
i seek my refuge on friday nights
