

# Deutschland (Has Gotta Die)

## Atari Teenage Riot

Deutschland has gotta die  
(Eins, zwei, drei, vier) Wake up, wake up, get off your knees  
Where will the West strike next?  
The war is still between East and West Money talks, money knows you're so bored and sick  
Let's burn Germany  
Building up economy of dead bodies  
That's what they want We react very strongly to tranquilizers, you know I need a diversion for a silent escape,  
harder, faster  
You know what they're after  
You haven't suffered the same as I have  
Senseless never ending terror We make 'em nervous, we make 'em nervous  
We make 'em nervous, we make 'em nervous  
We make 'em nervous Deutschland has gotta die Wake up, wake up, get off your spleen  
What will the West strike next  
The war is still between East and West Money talks, money knows you're so bored and sick  
Let's burn Deutschland The bloody wankers tried to pull us down  
Blow 'em up, blow 'em up  
The bloody wankers try to pull us down but  
But we're gonna smash them in But we're gonna smash them in  
But we're gonna smash them in  
But we're gonna smash them in The bloody wankers tried to pull us down  
Blow 'em up, blow 'em up  
The bloody wankers try to pull us down but  
But we're gonna smash them in But we're gonna smash them in  
But we're gonna smash them in  
But we're gonna smash them in The bloody wankers tried to pull us down  
Blow 'em up, blow 'em up  
The bloody wankers try to pull us down but  
But we're gonna smash them in But we're gonna smash them in  
But we're gonna smash them in  
But we're gonna smash them in The time is right to fight
