

# Methadonia

## Fun Lovin' Criminals

Methadonia  
They weeble and they wobble  
But they don't fall down  
You see the fed has got their back  
And they say, it's better than crack  
Plus it keeps them mellow and passive  
And takes them to the land  
The land of Methadonia  
There are three around my way  
And all day I see them straying  
Up the block and down the stairs  
Comin' in groups but leaving in pairs  
Like suckers with their weeks supply  
Your eye and I see you selling the elixir of life  
And takes them to the land  
The land of Methadonia  
And takes them to the land  
The land of Methadonia  
I see you hangin' on my stoop  
You better swoop before I do  
Some jammies in your eye  
Because the place in which you're sent  
By your liquid orange friend  
Has kept you from it for so long  
And takes them to the land  
The land of Methadonia  
And takes them to the land  
The land of Methadonia  
And takes them all fucking to the land  
The land of Methadonia
