

# I'm On

Ciara

I don't need you, boy I don't need nobody else  
I can do damage by myself  
Walk in the room, everybody like damn  
She can do damage by herself I don't need nobody else  
I can do damage by myself  
Walk in the room, everybody like damn  
She can do damage by herself Ms. Everybody wants it  
But can't nobody touch it?  
Ms. I don't rain, I'm hailing  
Go get the umbrellas Ms. Silence in the room  
Click, click, click, my Jimmy Choos  
Listen around for tension then  
And everybody's chick is wishin' They had that eye action  
Always attackin'  
Swaggers go so automatic  
Starts to get like an addict, addict You say it's incredible  
Maybe it's unbelievable  
Damn near inconceivable  
But I say, I say, I say, I say Turn off the lights  
I got my right hand in position  
So I can get that when I'm with ya  
Come on, on, come on, on  
I'm on, on, I'm turned on  
Come on, on, come on, on  
I'm on, on, I'm turned on I don't need nobody else  
I can do damage by myself  
Walk in the room, everybody like damn  
She can do damage by herself Ms. Call the paramedics  
'Cause chicks is lookin' sick  
Ms. I don't need your paper  
My net worth never waivers Ms. On your mark, set, go, yeah  
I'm runnin' this show  
Ms. Back at it once again  
Lights, camera, action They had that eye action  
Always attackin'  
Swaggers go so automatic  
Starts to get like an addict, addict You say it's incredible  
Maybe it's unbelievable  
Damn near inconceivable

But I say, I say, I say, I say Turn off the lights  
I got my right hand in position  
So I can get that when I'm with ya  
Come on, on, come on, on  
I'm on, on, I'm turned on Turn off the lights  
I got my right hand in position  
So I can get that when I'm with ya  
Come on, on, come on, on  
I'm on, on, I'm turned on  
Umm, I'm turned on I'm on overload from dusk to dawn  
Ready to explode  
'Cause baby, I'm on, I'm on  
I'm on like the light, lights  
I'm on like a fight, fight  
I'm on 'cause it's right  
'Cause it's right, 'cause it's right, I'm on Turn off the lights  
I got my right hand in position  
So I can get that when I'm with ya  
Come on, on, come on, on  
I'm on, on, I'm turned on I don't need nobody else  
I can do damage by myself  
Walk in the room, everybody like damn  
She can do damage by herself I don't need nobody else  
I can do damage by myself  
Walk in the room, everybody like damn  
She can do damage by herself  
By herself
