

# It's A Long Way Up

Barry Manilow

Once you find what matters in your life  
Keep on pushing through the darkness  
Till you see the light, you're gonna find it  
You're no longer behind it  
Once you learn what you've been doin' wrong  
You can make the change  
You need to make the carry on, now and forever  
The sooner the better, just remember now  
It's a long way up  
When you're coming from nowhere  
It's a long way up  
When you're coming from nowhere  
You gotta fight a little harder  
You gotta push a little more  
You gotta gamble everything you got  
To get you through the door 'cause it's a long way up  
You've been down before that's okay  
You can rest assured  
That every dog will have his day and life is a jungle  
But you ain't gonna crumble, remember now  
It's a long way up  
When you're coming from nowhere  
It's a long way up  
When you're coming from nowhere  
Don't give up the dream  
Hey don't you know it's dark before the dawn  
When you think you just can't take it  
That's when you'll make it  
You gotta to fight a little harder  
You gotta push a little more  
You gotta gamble everything you got  
To get you through the door 'cause it's a long way up  
You gotta to fight a little harder  
You gotta push a little more  
You gotta gamble everything you got  
To get you through the door
