When You Love Someone

Maze

This morning it was a fight to get up
Those words still ringing in my head
Never felt like such a fool in front of anyone
I guess that's what you do when you love someone
That's what you do when you love someone
I was in Nashville, you were driving home
I wish, I'd been in the passenger seat
I just needed you to know, I'm coming undone
That's what you do when you love someone
That's what you do when you love someone
If I fall, I try a little hard to get back up
Please stay down below
That's what you do when you love someone
That's what you do when you love someone
Just give me time if you need more
There's no way to ever really know
How to protect yourself or predict the outcome
But you do anything when you love someone
You do anything when you love someone
If I fall, I try a little hard to get back up
Please stay down below
That's what you do when you love someone
That's what you do when you love someone
I just hung up the phone
You've got a way of changing my day
You've proved me wrong, I was convinced I was alone, yeah
That's what you do when you love someone
That's what you do when you love someone
If I fall, I try a little hard to get back up
Please stay down below
That's what you do when you love someone
If I fall, I try a little hard to get back up
Please stay down below
That's what you do when you love someone
That's what you do when you love someone
That's what you do when you love someone
