

When You Feel Miserable

Starflyer 59

Time waits for no one
But you, I'd wait for so long
But still I feel the times
Of your rolling eyes around hereTake a walk with a sweet girl
So sweet, you know it's true
But you're wasting away
I just wish it would stayTake a walk
Down a highway, down my way
Take a walk
When you feel miserableOne date you'll find
Your eyes and a woman who's kind
Could you still fill the day
If you ran out of me
