

There Is a Party

DJ Bobo

[Refrain:]

There' s a party, don't you know today there is a party
Open up your heart, we gonna start it
Welcome at the beach, this is for you, just for you
There' s a party, don't you know today there is a party
Open up your heart, we gonna start it
Welcome at the beach, this is for you, just for you
Who-oh oh oh, who-oh oh oh
Who-oh oh oh, who-oh oh oh oh oh oh

[Rap 1:]

The way that I live has a big big price,
Sometimes I'm nice, sometimes I'm ice cold
And then it's show
I startet to dance, so don't you know
I get down with the beat, like I did in the past
Concentrate myself, and I'm doin it fast
Here is the question, are you ready to dance
When you hear my rap rhymes
You will take your chance

[Refrain b:]

There' s a party, here we start it
Don't you know there is a party
There' s a party, here we start it
Don't you know this is for you

[Rap 2:]

You think I'm a star, I tell you your wrong
I just made my music, and that makes me strong
For so many people being a star is a dream
When you see yourself acting then it's only a dream
You see your brother dancing, like being a clown
Or being a king I mean a king without a crown
So now let me tell you just one more thing
You better do what you want and you start this thing
