Sweetheart

M. Ward

You're sweetheart, sweetheart
You have a nice mind baby
You drove me crazy down those laneI cant explain this love I have for you
I cannot take my desire for you
When it starts again dont forget I love youOh my love talk my hand we will go walking
Moon light stars are shining in the sky
Everyone I know must be jealous
They dont have a love such as IYou're sweetheart, sweetheart
You have a nice smile baby
You drove me crazy down those laneOh my love talk my hand we will go walking
Moon light stars are shining in the sky
Everyone I know must be jealous
They dont have a love such as iYou're sweetheart, sweetheart
You have a nice smile baby
You drove me crazy down those laneI cant explain this love I have for you
I cannot take my desire for you
When it starts again dont forget I love you
When it starts again dont forget I love youOh my love talk my hand we will go walking
Oh my love talk my hand we will go walking
Dont forget I love you
Oh my love talk my hand we will go walking
Oh my love talk my hand we will go walking
Oh my love talk my hand we will go walking
Oh my love talk my hand we will go walking
