

Blessed Night

Saint Vitus

Walks ... we steal the light
My steel is strong my soul is sharp
Upon us now this blessed night
Oh, will be the message of my star
... the street, we'll raise by throne
With the wisdom of eternity
... just go along
Got our planets destiny
Blessed night,
Our blessed night
A beauty in that's time possess
Dark will own galaxies
Step up... on her breast
All the secrets of the black
... in blood ...
Star fall...reside
... my blade, if you must
I'll defend my realm with your lies
This blessed night
Broken in as time goes...
Precious ... is all that glows
... eternity
Lost my ...crystal light
My ...must be restored
On this ... blessed night
All my ... must go.
