I Won't

Little Mix

I got my pride, my self-respect
Need nothing more, want nothing less
'Cause all that I got should be enough to make it work
'Cause all that I want is to love and just be lovedI'll never let it go 'cause we can do this on our own
I'll never let it go, we have too much to let it fall
I'll never let it go 'cause we can do this on our own
I'll never let it go, we have too much to let it fallAnd I won't let anybody tell me no
I won't take anything for granted
'Cause I know that nothing good comes easy
If it did, I wouldn't be me, let it go and let me do it 'cause
I won't, I won't, I won't, I won't
I won't, I won't, I won't, I won'tI got my heart, my head up high
I will be strong, I will survive
'Cause all of the hurt will wash away with the rain
And all that we've learned will be enough to shine againI'll never let it go 'cause we can do this on our own
I'll never let it go, we have too much to let it fall
I'll never let it go 'cause we can do this on our own
I'll never let it go, we have too much to let it fallAnd I won't let anybody tell me no
I won't take anything for granted
'Cause I know that nothing good comes easy
If it did, I wouldn't be me, let it go and let me do it 'cause
I won't, I won't, I won't, I won't
I won't, I won't, I won't, I won'tHold you head up, see the daylight
Hold your head up 'cause your future's looking bright
Hold your head up, see the daylight
Hold your head up 'cause your future's looking bright
These stones and sticks are what makes me
These stones and sticks are all I need
These stones and sticks are what makes me
These stones and sticks are all I needAnd I won't let anybody tell me no
I won't take anything for granted
'Cause I know that nothing good comes easy
If it did, I wouldn't be me, let it go and let me do it 'cause
I won't, I won't, I won't, I won't
I won't, I won't, I won't, I won'tI won't
