

# As Long as We're Here

Clay Aiken

Why do we have to fight? Why can't we spend our time trying?  
I wanna be close to you, keep love from slipping through my hands  
Words said in anger, aimed at someone  
Are hard to take back once the damage is done, let's stop now  
As long as we're here alive on this earth  
I'm gonna love you for all that it's worth  
And one of these days we're gonna understand why  
Let's make the most of our time as long as we're here  
Some people live their lives holding their fears inside them  
Afraid to build windows to let the light of the world in  
They hide in the darkness of self-imposed walls  
If they could just tear them down they'd have it all  
As long as we're here alive on this earth  
I'm gonna love you for all that it's worth  
And one of these days we're gonna understand why  
Let's make the most of our time as long as we're here  
When you're with me I breathe easy  
You are my need, right now love me  
As long as we're, as long as we're here I'm gonna love you  
And one of these days we're gonna understand why  
As long as we're here alive on this earth  
I'm gonna love you for all that it's worth  
And one of these days we're gonna understand why  
Let's make the most of our time  
Oh, I'll make the most of our time as long as we're here  
As long as we're here
