Blue

Lasgo

No one else can touch me
Like the way you do
Nothin' seems to hurt me
When I am close to you
And I hope that we
Can spend our lives together
I truly wish
That this could last forever
For you and me
And when you cry tears keep on fallin'
I still feel your love for me is true
And when you cry tears keep on fallin'
I can see that you are feelin' blue
For me and you
For me and you
No one else can touch me
Like the way you do
Nothin' seems to hurt me
When I am close to you
And I hope that we
Can spend our lives together
I truly wish
That this could last forever
For you and me
And when you cry tears keep on fallin'
I still feel your love for me is true
And when you cry tears keep on fallin'
I can see that you are feelin' blue
For me and you
For me and you
