

Last Breath

[PFR](#)

I'm not here to reform you
Nor am I here to take you away
I've been sent with a message
And now moving off in a south-bound parade
If this were my last breath
I tell you where I'll be
Then I'd ask you if you'd be there with me
Nobody knows to be how long
You will be here, you hazard your faith
And my last day grows closer
I rest in the confidence, I have been saved
If this were my last breath
I tell you where I'll be
Then I'd ask you if you'd be there with me
If this were my last breath
I tell you where I'll be
Then I'd ask you if you'd be there with me
You don't know, how long
And I don't know, how long
