

# Work In Progress (Acoustic)

## The Dangerous Summer

Tell them all that I'm a work in progress  
Pour it out and I will stay out of the way  
Feel it out, for what it's worth I'm harmless  
Cut me down and I will leave with what I take I'm not saving you for myself  
I wanna see you and I wanna say  
You're what's keeping me warm  
You're what's keeping me safe Take my hands and keep them busy again  
For I think I'm losing my hope, release has come  
I keep a lot of problems in my head sometimes  
And I keep on forgetting  
So take my hands and keep them busy again Save me a place inside the quiet  
I don't hate, cause I see it in everyone around  
And lately I've been losing truth  
Faith I have been losing too Save me a place inside the quiet  
I don't hate, cause I see it in everyone around  
And lately I've been losing truth  
Faith I have been losing too Take it out on all your constant losses  
Know it's only just a miracle to face  
Even death can bring a man to life  
When he sits right up and still nothing tastes the same Save me a place inside the quiet  
I don't hate, cause I see it in everyone around  
And lately I've been losing truth  
Faith I have been losing too Save me a place inside the quiet  
I don't hate, cause I see it in everyone around  
And lately I've been losing truth  
Faith I have been losing too Take my hands and keep them busy again  
For I think I'm losing my hope, release has come  
I keep a lot of problems in my head sometimes  
And I keep on forgetting  
So take my hands and keep them busy again Take  
Take my hands  
Busy again  
Busy again  
Keep on forgetting
