A New Beginning

Pagan's Mind

In my eyes, closer to
Destiny revealed for you
Darkened self, sins of mine
Eyes of lies, no compromiseTime has lost you
The time enclosed your inner lies
Mind of treason
You played your life, profound my wayEnclosed to your
Your eyes wander too
A new beginning
Look at yourselfGaze the shores of endless pain
Turn to see your guiding hand
Live this life state of thrill
Open up your mind's free willTime has lost you
The time enclosed your inner lies
Mind of treason
You played your life profound my wayEnclosed to your
Your eyes wander too
A new beginning
Look at yourselfRealize
Learn to open up your mind
Mystify
Breathe the air surrounding youLight to dark
You are I and I are you
And closer to
The path will open in front of youHere you lie, here you cry
Change your step above the sky
Tokens dark, evil shell
Shut the door to your own hellTime has lost you
The time enclosed your inner lies
Mind of treason
You played your life profound my wayRealize
Learn to open up your mind
Mystify
Breathe the air surrounding youLight to dark
You are I and I are you
And closer to
The path will open in front of you
