Your Love

Rexxy

Why do birds always sing?
is it easier that flying
In a time like this
Are we just flying by?Take your time coming by
I don't think it's really right
In a time like this
Are you just passing by?In the night, in the spring
My love was only you
In a place like this
I don't remember youTake me to the moon
I'll fly away with youJust us two, I can't live without your love
I can fool everyone, now i'm spending
Time without you, baby I can't live
Without your loveJust us two, I can't live without
your love, I can't live
without your loveTwo and two are facing off
I'll always stay beside you more
in love
