

Sparkle and Shine (Acoustic)

David Usher

Heaven and earth coming down
We watched them fall
Angels are gathering 'round
No one talks
We'll be alright, time 's on our side
Angels are gathering 'round,
Tonight, we'll sparkle and shine
Bury me deep in the ground, cover my eyes
Dreamt we were killed from the fall
We never died
You'll be alright, I'm by your side
Friends are all gathering 'round
Tonight. . . we'll sparkle and shine!
It comes to us all
We'll never know why
It comes to us all
In the end
Heaven and earth coming down
We watched them fall
Dreamt I was there in your arms,
But we don't talk
You'll be alright, time 's on your side
Angels are gathering 'round,
Tonight, we'll sparkle and shine.
