Saturday

Go Betty Go

Saturday
You danced the night away away away
Getting further every dayNew Years came
And you forgot the date, the date the date
Didn't even know your nameChange is on the way
If you wanna live it out
Change is on the way
If you wanna figure outYesterday
You sold your car for hits, for hits, for hits
Now you have no way homeYour mother knows
It's the life you choose, you choose, you choose
And it tears her apartChange is on the way
If you wanna live it out
Change is on the way
If you wanna figure outTurn around and run
'Cause your world is going
In all the wrong directions
