

Saturday

Go Betty Go

Saturday

You danced the night away away away
Getting further every day New Years came
And you forgot the date, the date the date
Didn't even know your name Change is on the way
If you wanna live it out
Change is on the way
If you wanna figure out Yesterday
You sold your car for hits, for hits, for hits
Now you have no way home Your mother knows
It's the life you choose, you choose, you choose
And it tears her apart Change is on the way
If you wanna live it out
Change is on the way
If you wanna figure out Turn around and run
'Cause your world is going
In all the wrong directions
