Goodbye, So Long

Ike & Tina Turner

There's no need to worry all day long
'Cause worry don't help a thing
We've burned our bridges at both ends
So if I never see you again
Goodbye so long, hope you enjoy it while it lasts
'Cause soon this world of ours is gone
Farewell to you all 'cause Heaven knows
That we don't have all that far to fall
It feels like were in over our heads
That we've wasted our days
Running through life
With reckless disregard
Now there's nothing to save
Sooner than later I'll be high
Maybe I'll gain my peace of mind

So here's to the world passing us by, goodbye
Goodbye so long, hope you enjoy it while it lasts
'Cause soon this world of ours is gone
Farewell to you all 'cause Heaven knows
That we don't have all that far to fall
So wave goodbye, as we count down to the end
One more trip of all the sun, if I never see you again
'Cause sooner than later I'll be high
So cheers to the world passing us by, goodbye
Goodbye so long, hope you enjoy it while it lasts
'Cause soon this world of ours is gone
Farewell to you all 'cause Heaven knows
That we don't have all that far to fall
