

Hey Girl (Zornik Feat. Tom Helsen)

Zornik

Save me, come on girl and find me
I'll just sit and wait here
I'm waiting for the moment that somebody opens my luck
My luck is slowly fading I'm losing it unless
This is nothing but a dream I can't remember it was
Hey girl you didn't say your name now
Tomorrow I'll remember, remember that you're so
Hey girl you didn't say your name now
Tomorrow I'll remember, remember that you're so
Hey girl you didn't say your name girl
Tomorrow I'll remember,
Remember that your name was starting with an "s" and ending,
Endings are scary the story of my life is
I'm always very close but then it slips away
Hey girl you didn't say your name now
Tomorrow I'll remember, remember that you're so
Hey girl you didn't say your name now
Tomorrow I'll remember, remember that you're so
